Supplementary Application

MASTER'S PROGRAMS IN ENVIRONMENTAL STUDIES

Name _____
Last First Middle

Applicants to the Master's Program in Environmental Studies are requested to complete this Supplementary Application form in addition to the standard Antioch University New England Application for Admission.

Please return completed Supplementary Application to the Office of Admissions.

Program to which you are applying:

- Advocacy for Social Justice and Sustainability
 - Conservation Biology*
 - Environmental Education
 - Resource Management and Conservation
 - Science Teacher Certification in:
 - Middle Level Science (grades 5–9)
 - Life Sciences (grades 7–12)
 - Self-Designed Studies†
 - Sustainable Development and Climate Change
-

Write an essay responding to one of the following two choices. Please limit your response to no more than 1,000 words.

Choice 1:

A paradox refers to a statement, proposition, or situation that seems to be absurd or contradictory, but in fact is or may be true. Describe a paradox relating to any environmental issue of your choice. Tell us why you think this is such an important paradox. What actions do you think should be taken to address this contradictory situation?

Choice 2:

Describe a seminal moment you've had while observing nature. Describe your observation and tell us why your observation was so influential.

* **For candidates applying to the Conservation Biology Program:** Please attach a 250-300 word statement describing your primary research interests, in addition to your essay.

† **For candidates applying to the Self-Designed Studies Program:** Please attach a detailed proposal of a 42-credit program which describes your course of study, in addition to your essay.
