---

Persons applying for the MBA in Sustainability are requested to complete this Supplementary Application form in addition to the standard Antioch University New England Application for Admission.

The following essay and questions will be assessing your readiness for graduate study, aptitude, understanding and articulation of sustainability, and original thinking and writing. We encourage you to use examples to underscore your responses.

#### Essay:

Describe what experiences, individuals, and events have led you to pursue a degree in sustainability. Your essay should be approximately 300 to 500 words.

#### Short Answer Questions:

Please answer each question in fewer than 100 words.

- a. Describe your concept of sustainability.
- b. How will an MBA help you to meet your personal and professional goals in the sustainability field?
- c. What strengths and attributes do you have that will enable you to develop leadership skills in the field of sustainability?
- d. Tell us about your role in a change effort in a business or organization (club, school, volunteer) and the insights you gained from that experience.
- e. How do you learn best? Please provide an example.
- f. What would your colleagues/classmates say are your strengths and weaknesses as a team member?

*Please return completed Supplementary Application to the Office of Admissions.*

#### Note:

##### Financial Accounting

Students need to show evidence of competency in Financial Accounting. Students have two options:

1. Completion of Antioch University New England's online Introduction to Financial Accounting course, or
2. Proven competency on Antioch University New England's online Introduction to Financial Accounting assessment test.

##### Micro Economics

Students need to show evidence of competency in Micro Economics. Students have two options:

1. Completion of Antioch University New England's online Introduction to Economics course, or
2. Proven competency on Antioch University New England's online Introduction to Economics assessment test.

##### Excel

Students need a working competency with Excel. This can be self-evaluated and can be completed through self-tutorials.
