Supplementary Application

WALDORF TEACHER EDUCATION PROGRAM

Name _____
Last First Middle

Have you completed and returned the Waldorf Education Foundation Studies Questionnaire? Yes No

The questionnaire is available at www.antiochne.edu/ed/waldorf/fs_letter.cfm

Applicants to the Waldorf Teacher Education Program are requested to complete this Supplementary Application form in addition to the standard Antioch University New England Application for Admission.

Please answer the following questions in your own handwriting.

Please return completed Supplementary Application to the Office of Admissions.

1. Please describe your interest in becoming a Waldorf teacher, giving a short biographical statement concerning:
 - a) Your reading of Rudolf Steiner's work in anthroposophy and any involvement in the practical application of his work.
 - b) The length of time of your involvement with these concepts and the nature of your activity—workshops, courses, study groups, Foundation Year studies, etc.
 - c) Please indicate any previous connections you have had with Waldorf education, such as being a parent, an assistant in crafts or some kindergarten work, other teaching involvement, or volunteer work such as a board member, etc.

2. Please describe the path of events leading you to pursue Steiner's work, and how this has evolved into your wishing to be a teacher in a Waldorf School.

After evaluating your experience with and knowledge of Steiner/anthroposophy, faculty will determine whether you have sufficient background to enter immediately or whether you need to pursue further study. If further study is needed, the Waldorf Program director will contact you with information regarding possible study plans.

Note: Adequate background in anthroposophy is required for acceptance into the Antioch University New England Waldorf Teacher Education Program. Applicants are advised to take into consideration the time necessary for this preparation.
